BEFORE INSTALLATION

Read this instruction carefully before Start Installation. Proper tools will improve the quality of installation and reduce the time required. If missing parts or any damage found please take a picture and contact us. Professional installation would be highly recommended. Periodic check to ensure all mounting hardware remains secure and tight

STEP 1 INSTALL ROLL BAR

Follow the instructions below to install the roll bar using supplied hardware.

Do not tighten the hardware, you will need to adjust the width of roll bar on later install.

INSTALLATION INSTRUCTIONS

STEP 2 INSTALL ON THE TRUCK BED

There are two installation methods for truck bed.

Adjust the position of the roll bar to fit perfectly with the bed. Then tighten all hardware.

This bumper comes complete with LED lights which need to be connected to a power source. Failure to properly make these connections could result in damage to the LED lights and/or your vehicle and may result in personal injury. If you are not qualified to make the proper connections, we highly recommend that you contact an installation expert to complete the connections.
