Hex key	1	S=5		

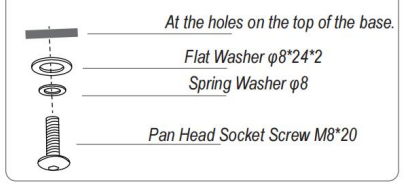

Parts List

STEP 1:

- *Locate the side tube (Part B2) and the base (Part C).*
- *Assemble the base according to the figure below; the required screws are as shown.*

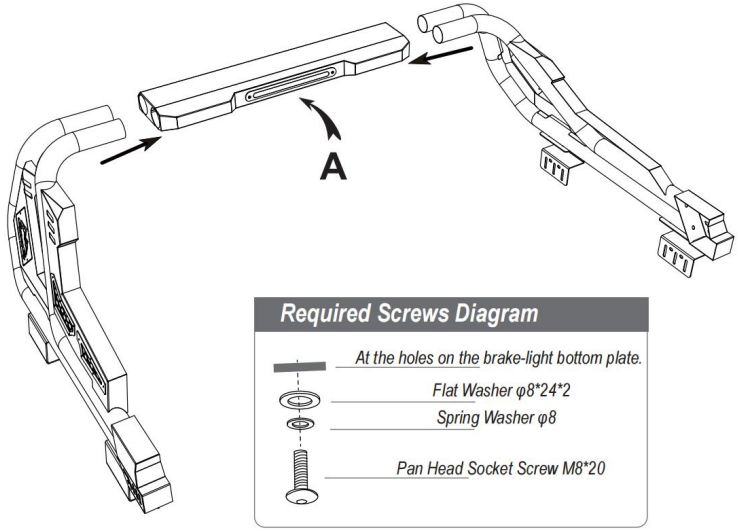

Required Screws Diagram

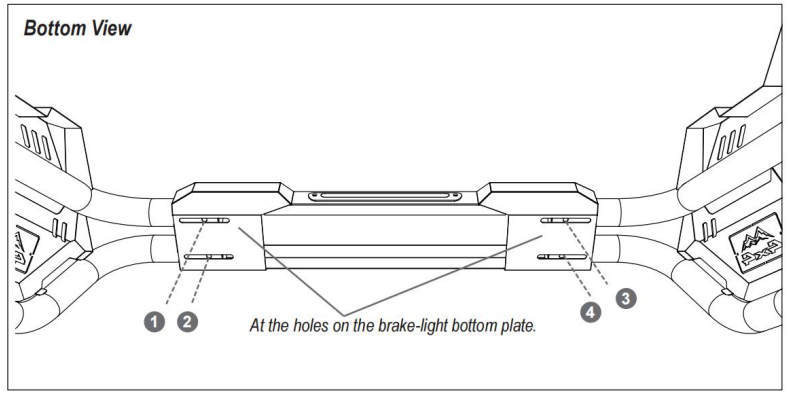

Required Screws Diagram

STEP 2:

- *After completing Step 1, repeat the procedure to assemble the other side in the same manner.*

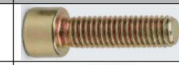

- *Locate the top plate with the brake light, and assemble it following the diagram below.*

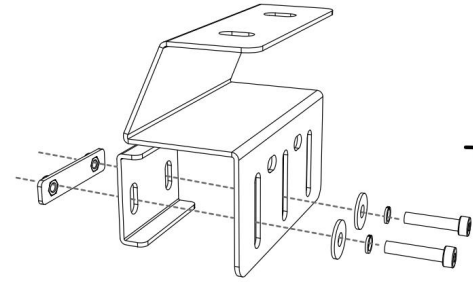

- *This step has four hole locations; the required screws are as indicated in the figure.*

STEP 3:

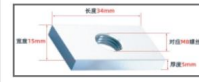

- *Final step: Install the product onto the vehicle. Before doing so, please note the following: first adjust the product's overall width to match the pickup truck bed width, and handle with care when lifting it onto the vehicle. This operation requires at least two people to avoid scratching the vehicle paint.*
- *After lifting the product onto the truck bed, adjust it to a distance of about 1 to 1.5 fist-widths from the rear window, then proceed with the securing in the next step.*
- *Schematic Diagram of Product Securing for Vehicle Loading (Clamping Plates C, D, E)*

Part Name	Qty	Specification	Image	Remarks
Socket Head Cap Screw	8	M8*35		Vehicle Mounting Screws
Flat Washer	8	Φ8*24*2		
Spring Washer	8	Φ8		

This part is intended for installation on vehicles equipped with rails.

- *If your vehicle is equipped with guide rails, remove Part D, use Part E instead, and secure it by engaging Part E into the guide rails.*
